WHERE ART MEETS THE STREET

The Downtown Guelph Business Association (DGBA) promotes a vibrant, lively and diverse downtown, one that is rooted in history with a clear vision for the future. We advocate on behalf of our 450 members who represent almost \$100,000,000 in property value to the City of Guelph. We work with businesses to promote the core as the best place in the city for personalized service, excellence in hospitality, and unique shopping experiences. We also support the arts, cultural events, exhibitions, festivals and parades. We believe that improving downtown parking is essential to the economic health of the city and say so every chance we get.

Guelph Arts Council exists to help make connections in the world of arts and culture. We love to make those links - helping artists and arts organization to find valuable resources, profiling the fantastic arts and culture in this community for residents and visitors and giving voice to the arts and culture sector. Get in touch with us, we can help make some connections for you.
